## Air Springs for the Commercial Vehicle Replacement Business

**Quality, price and availability - these are the watchwords for anyone who wants solutions that are both cost-effective and reliable. That's exactly what you get with the PRIME-RIDE brand.**

The air spring systems are manufactured exclusively on certified facilities, which means customers can be confident they are getting a consistently reliable product. The product range covers the most important applications for trailers, trucks and buses. And what's more, customers benefit not only from attractive prices and terms of delivery, but also from demand-oriented availability, because the air spring systems can be ordered directly from stock. In short, when you order PRIME-RIDE air spring systems, you secure outstanding performance for your money.
